Application for Affiliate Membership

Thank you for your interest in joining the Lightning Protection Institute (LPI). Please print out, complete, sign and notarize, and mail the following Application packet along with your check for your first year’s dues and initiation fees (Affiliates pay $500 + $250 = $750). Subsequent year’s dues will be $500 for Affiliate membership; billed each May and due by June 30. An Affiliate company is one that does not have a Master Installer or Master Installer Designer on staff; if your company does have a Master Installer or Master Installer Designer on staff, stop this application and apply as a Dealer Contractor.

Please note as part of the application process you are required to provide three (3) business references on the attached forms. At least one of these references must be from a member of ULPA, LSA, LPI, or from UL or a UL-listed company. References should be provided by you with your application. In addition, LPI Bylaws require that you provide evidence of third-party inspection of three (3) completed lightning protection installations. You may provide either a UL Master Label, or LPI-IP Master Certificate for each to meet this requirement. The Bylaws state you have 24 months after application to provide these project certifications.

As soon as we have all information, your complete application packet and reference information will be distributed to the LPI Board of Directors to vote on your membership. Once approved by 75% vote of our Directors, we will advise you of your Affiliate membership with a certificate and additional information on lightning protection. At that time we will also add your company to the LPI website to be viewed by the public at www.lightning.org.

Please note that application to approval times may vary depending on your references response time and LPI Board of Directors response times. If you have any questions about this Application process, please email us at lpi@lightning.org or call us at 800-488-6864
Thank you again for your interest in LPI and the lightning protection industry.

The Lightning Protection Institute designs and develops information resources on complete lightning protection systems for consumers and specifiers. LPI markets education products to members for use in the construction industry. The focus is to develop the total market for lightning protection through promotion of National Standards with supporting loss data, experience from past design, and new information from research.
